DECMIL SECURES DELIVERY PHASE WORK IN PNG ON MANUS

- **Changed scope for the existing contract at Lombrum awarded in December 2013**
- **Total contract value has increased by \$106 million to \$253 million**
- **Scope includes upgrade and improvement to civil infrastructure**

Decmil Group Limited (ASX: DCG) ("Decmil") has secured the Delivery Phase works for the Department of Immigration and Border Protection at the Offshore Processing Centre at Lombrum on Manus in Papua New Guinea (MOPC Lombrum).

The contract is the continuation of the original contract awarded in December 2013, progressing from the Planning Phase to Delivery Phase, for the expansion of the Offshore Processing Centre on Manus originally valued at \$147 million.

The original scope of the project included accommodation facilities, central dining and recreational facilities, operational and logistics facilities and supporting engineering facilities and services.

Through the Planning Phase, aspects of the project scope changed to better support the outcomes sought by the Australian Government. The scope of works, currently valued at \$253 million, includes additional operational facilities such as warehousing and storage, upgrade and repairs to roads, repairs to the existing water and sewerage treatment plants, improvements to public roads, and the inclusion of surgery capability in the medical facility.

Scott Criddle, CEO and Managing Director of Decmil said:

"Our projects in the Manus Province continue to make good progress and we continue to work closely with the Australian Government to deliver the required infrastructure.

"The scope of work on the project, which now includes broad based civil infrastructure will allow Decmil to demonstrate our expertise in working in remote locations and our capability to deliver a diverse range of construction and engineering services to the Government."

About Decmil

Decmil Group Limited (DGL) offers a diversified range of services to the Australian resources and infrastructure industries. Companies within the group specialise in design, civil engineering and construction; accommodation services; mechanical fabrication; and maintenance. Listed on the Australian Securities Exchange (ASX Code: DCG), Decmil's goal is to maximise returns from our operations to deliver value to our shareholders, clients and other stakeholders.
