DECMIL AWARDED EXTENSION TO QCLNG WELLSITE INSTALLATION SERVICES CONTRACT

- **Initial estimated \$65 million extension to existing wellsite installation services contract**
- **Ongoing contracting framework includes field logistics, elements of material supply and provision of construction management services**
- **Solidifies Decmil's position in the operational phase of upstream CSG**

Decmil Group Limited (ASX: DCG) ("Decmil") is pleased to announce the award of an extension to its QCLNG Upstream Project - Wellsite Installation Services Contract for QGC Pty Ltd ("QGC").

The win, which is initially estimated to be worth approximately \$65 million for 2015, is an extension of the existing framework contract with QGC, and has been awarded to the Group's wholly-owned subsidiary Eastcoast Development Engineering Pty Ltd (EDE).

The contract extension will see Decmil move from project phase to operational phase, supporting QGC with wellhead construction, logistics, material management and a range of construction services for 2015.

Scott Criddle, CEO and Managing Director of Decmil, said he is delighted with the win:

"This extension confirms the strong relationship we have with QGC and further demonstrates our ability to deliver projects to the upstream CSG industry.

"Decmil now has an established mechanical capability and we look forward to expanding our presence in the operational phase of upstream CSG, including in maintenance and other related services".

About Decmil

Decmil Group Limited (DGL) offers a diversified range of services to the Australian resources and infrastructure industries. Companies within the group specialise in design, civil engineering and construction; accommodation services; mechanical fabrication; maintenance; and telecommunications. Listed on the Australian Securities Exchange (ASX Code: DCG), Decmil's goal is to maximise returns from our operations to deliver value to our shareholders, clients and other stakeholders.
