DECMIL AWARDED \$78M MRPV CONTRACT FOR ISON ROAD RAIL OVERPASS

- Decmil secures works with Major Road Projects Victoria for the Ison Road Rail Overpass situated in Werribee, west of Melbourne.
- Work on site has commenced and is expected to be completed during 2025.

Decmil Group Limited (**Decmil** or **Company**) is pleased to announce that it has been awarded a \$78 million contract by Major Road Projects Victoria (**MRPV**) for the Ison Road Rail Overpass project (**Ison Road Project**). The Ison Road Project contract is within Decmil's target sweet spot for projects between \$50 million and \$150 million.

The Ison Road Project encompasses the provision of a new road overpass for the Melbourne-Geelong rail line that will connect Ison Road in the north with the Ison Road extension to the south at Browns Road. Works include the construction of a new four-lane road (two lanes in each direction) including shared user paths.

This is the third project Decmil has been awarded as part of MRPV's new Program Delivery Approach, which has a strong focus on collaborative, panel-based procurement during the tender phase leading to the delivery works.

Decmil CEO Rod Heale said:

"Decmil is pleased to be able to continue to enhance its relationship with the Victorian Government by securing another significant contract with MRPV. Decmil's track record in delivering major infrastructure projects facilitates our continued success in securing work in this sector."

"The Ison Road Project award extends Decmil's strong order book under the Company's highly selective tender strategy centred on high-quality larger-sized contracts."

This ASX release was authorised by the Continuous Disclosure Committee of the Decmil Group Limited Board.

About Decmil

Decmil Group Limited ('**Decmil**') (ASX: DCG; DCGPA) is a market leader in complex, multi-disciplinary project services. Decmil's group of companies deliver integrated construction and engineering solutions across the resources, infrastructure, and renewables sectors. Decmil's goal is to maximise returns from operations to deliver value to shareholders, clients, and other stakeholders.
